

Soubhagya Kabiraj

Address: Kulti, Asansol, West Bengal.

Profile: [LinkedIn](#) | [GitHub](#) | [Leet-Code](#)

Aspiring Python developer with a strong foundation in **Backend**, MySQL. Seeking role to contribute for building robust web applications. Aiming to apply my skills in real-world projects while continuously learning, growing within a professional development team.

Projects:

- **ShopEase – E-Commerce Web Application**
 - Personal Full-Stack Project using **Django, SQLite, Bootstrap 5**.
 - Developed a complete responsive e-commerce platform with user authentication, product management, category-wise filtering, shopping cart, wishlist, and checkout system with Cash on Delivery integration.
 - Implemented order management, product review & rating system, advanced search and sorting, profile management, and customized Django admin panel using Django ORM and MVT architecture.
 - [GitHub Repo](#)
- **Market-Wave – Retail CRM & Analytics Platform**
 - Personal Full-Stack Project using **Django, SQLite**.
 - Developed a centralized CRM system using Django to manage products, customers, orders, and tags for a shopping mall through a single admin interface, CRUD operations with relational database modeling using Django ORM. Built analytics module with six interactive visualizations and order status tracking with MVT.
 -
- **Railway Ticket Booking System (Train Ease)**
 - Group Project on Advanced Java.
 - Developed a full-stack online railway reservation web application using Servlet, **JSP, JDBC, and MySQL** following MVC architecture. Implemented Admin panel and User module. Using **Bootstrap** for clean UI. Implemented session handling for secure login. Designed a relational database schema.

Skills:

- **Core IT Concepts:**
 - Data Structure & Algorithm (Java)
 - Design & Analysis of Algorithm.
 - Object Oriented Programming (Java)
 - Operating System
 - Computer Networks
- **Frontend:**
 - HTML
 - CSS
 - Bootstrap
- **Backend:**
 - Python
 - Flask
 - Django
 - REST API
 - Django ORM
 - Postman
- **Databases:**
 - MySQL
 - SQLite
- **Version Control:**
 - Git
 - GitHub
- **Tools & IDE:**
 - Visual Studio Code
 - MySQL Workbench

Achievements & Certifications:

- **Leet-Code Contest Rating:** 1421
- **IEEE Student Member** — Engaged in technical communities (2024–Present)
- **Guidewire DEVTrails University Hackathon 2026**, organized in partnership with EY and National Insurance Academy
